## Injunction Against Striking Coal Miners Sought

COLUMBUS, O., May 20.—(By the Associated Press)—Suits asking an injunction against striking coal miners interfering with non-union employees of coal stripping companies in Jefferson and Harrison counties were filed in federal district court here today.

Judge John E. Sater took the case under advisement and will not act on it until next week.

Plaintiffs in the case are the Harman Creek Coal Company, Pennon Coal Company, Tusa Coal Company, United Coal Mines, Inc., and the Wayne Coal Company, all operating in Jefferson and Harrison counties.

Defendants are Lee Hall, president, and other officers of District 6, United Mine Workers of America; Frank Ledvinka, president, and other officers of Sub-district 5; William Brown, secretary of the national organization, and officers and members of local unions in Sub-district 5.

Plaintiffs said they employ 800 non-union employees and complain that since April 1, when the nationwide coal strike began, strikers have been interfering with them and by "intimidation, threats, intimidation and physical violence," tried to force them to join the union and quit work.

The complaining companies say they have orders for 200,000 tons of coal, mostly commercial coal to be shipped outside the state and that they will lose these contracts if their production is stopped. Numerous instances of alleged violence are enumerated in the petition.

In groups of four to twenty the strikers have visited non-union employees, have attacked deputy sheriffs of Harrison county and on one occasion a mob of 1,000 marched from Adams, Jefferson county, to the Tusa Coal Company's mine in Harrison county, and forced miners to quit their work, it is recited.

A temporary injunction and upon fuller hearing a permanent one is asked against further interference, picketing and parading of crowds within a mile of the plaintiffs' properties and against other interference or violence.

### SLAYER OF POLICEMAN HANGED BY A MOB

TEXARKANA, TEXAS, May 20.—(By the Associated Press)—This city was quiet today following the lynching last night of Hullen Owens, negro, by a mob who took him from the Miller county jail on the Arkansas side, where he had been confined following the fatal shooting of R. C. Choate, Arkansas policeman.

Authorities have made no announcement concerning an investigation. Owens, who had been arrested Thursday night on a charge of theft, was trying to escape after having been taken out of the jail by the officers, killed Choate as he attempted to prevent his escape. The negro, suffering from a gun shot wound in the face, inflicted by Chief of Police Lummas, fled and attempted to drown himself. He was rescued and taken to a hospital.

The threatening attitude of a crowd that gathered about the hospital caused the removal of the negro to the jail. The floors of the jail were battered down after Sheriff Strange refused to give up the keys to the mob, which had followed him. Municipal Judge Barney was told "This is no time for pretty talk," when he appealed to the crowd to disperse. Owens was dragged from his cot with a rope and taken to a park in the heart of the city, where he was hanged by a mob.

The mutilated body was then dragged to an open space near the Union depot and placed on a large quantity of kerosene-soaked blazing fuel.

Samuel Hill, handless Tacoma cigar dealer, has invented this machine to make change rapidly. Besides, he shaves, dresses and drives an automobile. He won't use artificial hands.

### YOUTH HELD ON PIRACY CHARGE

WEST PALM BEACH, FLA., May 20.—(By the Associated Press)—Federal authorities have entered a charge of piracy against Sanford Mobley, 18-year-old youth held in jail here in connection with the robbery of the Bank of Stuart at that town near here last week, whom they allege to be a leader of private bands responsible for numerous raids recently on the cargoes of vessels in the vicinity of the Bahama Islands.

Request by the federal authorities yesterday that Mobley be placed in their custody was made, they said, as the result of an extensive investigation by both American and British officers of recent raids on ships which were said to have been conducted in true pirate style and in one instance to have netted the alleged pirates \$15,000. Mobley is being held here with another youth with whom he was arrested after a chase leading half way across the state following the bank robbery.

### Moonshine Financiers Sought By Sleuths

WASHINGTON, D. C., May 20.—(By the Associated Press)—Moonshine financiers are now being sought by the dry law enforcement agents in the south, it was said today at prohibition headquarters in Virginia, Tennessee and Kentucky. Officials said it has been discovered that men with money are setting up illicit stills and paying moonshiners regular wages to operate them. When the operators are caught, it was declared, they either escape jail sentences as first offenders or receive \$5 a day from their employers while in prison to protect their backers.

Efforts are being made to round up the men behind the scenes.

DUBLIN, May 20.—(By the Associated Press)—Strong rumors were current this afternoon that an agreement had been reached between Michael Collins, head of the provisional government, and Eamon DeValera, the Republican leader. The rumors began circulating when, at 3:55 o'clock this afternoon, the Dail Eireann had not yet resumed its session.

In the Dail session a motion for elections in June subject to the agreement was unanimously adopted the dispatches add.

RELEASED, May 20.—(By the Associated Press)—An agreement between the free state and the Republican factions of the Dail Eireann regarding the forthcoming Irish elections and other questions was reached this afternoon, according to advices received in Belfast late today.

BELFAST, May 20.—(By the Associated Press)—Murder and arson, inspired by religious prejudice, continued to terrify Ulster today.

Reports of the number of deaths in yesterday's shootings in Belfast vary from five to eight, while a dozen or more persons were wounded. The damage caused by the series of incendiary fires aggregated many thousands of pounds. Three men, who were shot upon avowing themselves Protestants, died during the night.

Two men today entered the saw mills in the York street area, inquired the religion of the various workers and shot dead a Catholic, John Connolly, apparently in reprisal for a similar shooting in the case of a Protestant yesterday.

Shanes Castle, the County Antrim home of Lord O'Neill, whose son is a member of the Ulster house of commons, was burned today by 40 men said to be from Tyrone. The caretaker was wounded while defending the castle. The raiders retired after setting the fire. Lord O'Neill, who is 82 years old and Lady O'Neill were rescued by neighbors.

The Ballymena station in County Antrim, was badly damaged by raiders last night. The Martinsdown station on the Cushindall line and also the police barracks there have been destroyed.

DUBLIN, May 20.—(By the Associated Press)—Dispatches from northern Ireland say that Sinn Fein forces have captured the police barracks at Glenties, Martinsdown, Carnlough and Cushindall, all in County Antrim.

### To Reorganize New York Postal Force

WASHINGTON, D. C., May 20.—(By the Associated Press)—Acting Postmaster General Bartlett left Washington today for New York with the announced purpose of thoroughly reorganizing the New York City post office in consequence of the arrest yesterday of several post office employees said to have been involved in numerous schemes looking to the looting of mails.

Before his departure Mr. Bartlett said that the department had in mind "the entire elimination from the service of any employees who were found to be connected in any way with this band of crooks and rascals, who have been operating principally through the registry division of the New York City post office."

### Daugherty Should Resign, Says Senator

WASHINGTON, D. C., May 20.—(By the Associated Press)—The declaration that Attorney General Daugherty should resign and "not further embarrass the administration" was made in the senate today by Senator Caraway, Democrat, Arkansas, during a renewal by the senator of discussion of Mr. Daugherty's alleged connection with the release from the Atlanta prison of Charles W. Morse, New York ship builder.

Mr. Caraway charged that the attorney general had requested Thomas B. Felder, former Georgia attorney, to employ "the government chief witness" in the Bosch Magneto investigation, as his assistant in defending the Bosch company. He reviewed records and documents in the Morse case and exclaimed:

"I say that there is only one decent thing for the attorney general to do, that is to resign and not embarrass the administration any further."

### Children Living In Hole Under Straw Stack

REGINA, SASK., May 20.—(By the Associated Press)—On the verge of starvation and practically nude, six children were found living in a hole buried under a straw stack covered over with brush wood near Cupar, Sask., and brought here by an officer of the department of dependent and neglected children.

The youngest child, 15 months old, is under a doctor's care. The eldest is 9 years of age. Charges of neglect have been filed against the mother.

### Abandonment Of Proposed Merger Of Independent Steel Plants Forecast

NEW YORK, May 20.—(By the Associated Press)—Abandonment of the proposed merger of independent steel companies was generally forecast today as a result of the withdrawal of the Youngstown Sheet and Tube Company from the six-company combine.

J. A. Campbell, president of Youngstown, previously had been agreed upon as head of the proposed merger, serving as chairman of the board of directors and chairman of the executive committee.

Executives of the remaining five companies—Midvale Steel and Ordnance, Republic Iron and Steel, Inland Steel, Steel and Tube of America, and Brier Hill Steel—are expected to confer today with Mr. Campbell and representatives of the Kuhn, Loeb & Company, bankers, to decide upon a course of action.

Latest developments in the merger situation have resulted in a flood of rumors concerning possible new combinations.

YOUNGSTOWN, O., May 20.—(By the Associated Press)—Withdrawal of Youngstown Sheet and Tube Company from the proposed merger of six independent steel companies was due to insistence that headquarters of the proposed combination be located in Youngstown, according to a story given credence in steel and financial circles here today.

It is an open secret that Youngstown people who are large holders of sheet and tube stock have been opposed to the proposed merger, on the ground that with offices in New York, the combination would take away much of Youngstown's prestige in the steel industry.

President James A. Campbell, it is said, was told by his directors and by other official stockholders that their consent would be given only if officials of the proposed new corporation were established here. This condition met opposition at the New York meeting of representatives of the six companies, it was said, and finally several directors of the sheet and tube were called to the meeting. They insisted on their stand, according to advices here, and withdrawal of sheet and tube from proposed merger followed.

### Cincinnati Shoe Strike In Effect

CINCINNATI, May 20.—The strike of union shoe workers went into effect in the sixteen factories of the Cincinnati Boot and Shoe Manufacturers' Association this morning. "Most of the factories had been practically closed for a week and those that were operating were merely finishing up work on hand," said W. H. Talmann, secretary of the manufacturers' association. "Less than 1,000 workers quit today, but more than six thousand are out of work, he said."

The factories closed are those of the Calhoun Shoe Company, Van Dusen Shoe Company, Dittus Shoe Company, Stevens Shoe Company, Feder-Gregg Shoe Company, Hollers Company, Homan-Hughes Company, Julian and Koenig Company, Krippendorf-Dittmann Company, Krohn-Fechheimer Company, Roth Shoe Manufacturing Company, Sachs Shoe Manufacturing Company, Scheffele Shoe Manufacturing Company, Stern-Auer Company, Robert Wise Company and Sam B. Wolf Company.

### BETTER WEATHER

COLUMBUS, O., May 20.—Letting up of the unseasonable May weather that has gripped Ohio for the last few days was predicted for tomorrow by the United States weather bureau here today. The forecast was slightly warmer.

There is little likelihood of a frost tonight, Weatherman Alexander said.

### PINCHOT INCREASES HIS LEAD

PHILADELPHIA, PA., May 20.—(By the Associated Press)—Gilford Pinchot's lead over Attorney General George A. Ladd for the Republican nomination for governor of Pennsylvania today stood at 12,001, the biggest majority shown for him since the count of Tuesday's primary started.

In the 1,738 districts heard from, Pinchot received a total of 501,287 and Ladd 489,386. Meanwhile, Mr. Pinchot is at his home in Pike county planning for his campaign against John A. McSparran, Democratic nominee for governor. In discussing the next Republican national convention Mr. Pinchot said that he expected to see the unanimous re-nomination of President Harding.

### Nine Hurt In Harvard Explosion

CAMBRIDGE, MASS., May 20.—(By the Associated Press)—The list of injured in the explosion of a liquid oxygen tank at the Jefferson physics laboratory at Harvard University was brought to nine today with the addition of the names of two students, W. T. Reilly and C. D. Bent. The students who were attending a class in the building, were only slightly hurt.

State Chemist Walter E. Wedger today was examining fragments of the wrecked tank and the debris to determine if possible the exact cause of the explosion.

State Fire Marshal George Nunt in a statement asserted that hereafter all laboratory experiments involving the use of highly combustible gases or explosives, must be carried on in isolated buildings.

### New National Automobile Association

ST. LOUIS, May 20.—(By the Associated Press)—Formation of a new national automobile association was under way here today by state automobile clubs of Illinois, Ohio, Kentucky, Indiana and Texas, following the breaking up of the annual convention of the American Automobile Association late last night over a parliamentary technicality when these organizations withdrew from the national body.

Disruption of the association resulted from a dispute between the Ohio and Chicago clubs, which challenged the seating of each other's delegations.

The Chicago Motor Club and the Missouri Automobile Club with other state bodies remained in the American Automobile Association and continued in session today.

Fred Caley, of Cleveland, was named temporary chairman of the organizations which left the convention.

### Marble-Shooting Tournament Staged In Philadelphia

PHILADELPHIA, May 20.—(By the Associated Press)—Nearly all of young Philadelphia turned its steps toward city hall today to see "Red" Stoddard, local "champeen" marble shooter, knuckle down against a class of youngsters from other cities. "Red" faces the possibility of humiliation of having the championship crown adorn the bobbed tresses of a girl from Newark, N. J., and he simply has "no use for women," except his mother.

The grand marble shooting contest will take place on city hall plaza and will be a feature of the last day of boys' week.

"Red" will knuckle down in the concentric rings with clamps from New York, Baltimore, Camden, Bryn Mawr and other nearby places. The winner will receive a handsome cup. "Red" already has promised it to the William Cramp school, which he attends.

When the mayor of Newark appeared for a bid to step forth and defend his city's name in marble shooting circles, not a boy volunteered. Marguerite Ruth, who is reputed to flick a wadded agate with the best shooters in her neighborhood, stepped up and it is thought likely that the judges will rule her eligible, just to lend additional zest to the contest.

### Search For Gangsters In Chicago

CHICAGO, May 20.—(By the Associated Press)—Activities in Chicago's terrorist war narrowed today to the search for Charles Daudauskis and "Floater" Stanley, alleged slayers of two policemen, killed more than a week ago, and efforts of citizens to secure funds with which to pay 1,000 additional policemen and ten more assistant prosecutors.

Daudauskis and Stanley were named by John Miller, alleged driver of the car in which they rode, as the slayers of Terrence Lyons, acting lieutenant, and Thomas Clark, patrolman, shot in labor disturbances, police say. Miller is said by police to have made a confession.

Chicago business men appeared yesterday before city and county officials with the plea for additional police protection and more legal machinery with which to try men now being held. Although no definite steps have been taken in regard to raising the large fund necessary for such an increase in officers and law enforcers, the city council heads indicated that they would meet Tuesday and discuss the situation.

County authorities said they would announce their decisions in a short time. Attorneys for "Big Tim" Murphy, "Con" Shue and Fred Mader, known as the "big three" in labor circles, now being held on indictments charging them with murder in connection with the slaying of the police officers, were waiting until Tuesday when they will be heard on a writ of habeas corpus, petitioned by them.

### Movie Interests Make Plea Not To Continue The Investigation Of Valentino

LOS ANGELES, CAL., May 20.—(By the Associated Press)—The names of five witnesses, whose testimony is believed to be of great prosecutive value, were obtained today at Indio, Cal., by Los Angeles detectives, who are investigating in Mexican border towns the recent marriage in Mexico of Rodolph Valentino and Winifred Hudnut, known professionally as Natacha Rambova.

The district attorney is trying to determine whether Valentino committed bigamy in remarrying before his divorce from Jenn Acker, screen actress, was made absolute.

Deputy District Attorney McClelland stated he had received a visit today from representatives of "Motion Picture Interests" who had attempted to discourage the investigation. He quoted them as saying:

"There is much money involved. It will be very disastrous to the industry if the Valentino case is prosecuted."

He said he replied:

"When you find damaged goods, you must take the hazard of the game."

He declined to name his visitors. He said they made no "threats," but rather a "plea," because of the financial value of Valentino's contracts and the probable effect of prosecution on the "box office."

The detectives declared they had located at Indio, Cal., five witnesses who would testify to the appearance of Valentino and Miss Hudnut at the Palm Springs Hotel.

It has been previously stated that if sufficient evidence was obtained to prove that after the marriage in

### SEARCH FOR DAUGHTER

CLEVELAND, O., May 20.—(By the Associated Press)—A mother and father led a group of neighbors through the rain-drenched woods, twenty miles southeast of here, this morning in the hope of clearing up the mysterious disappearance of their seventeen-year-old daughter, Irene Charlie, who was last seen two days ago when she left her home for the Towus High School.

She did not go to the school. When her parents went through her belongings they found a note in which she wrote: "Good-bye, you will not see me again."

A revolver belonging to her father was missing.

According to Mr. and Mrs. Frank Chalkie, the girl's parents, Irene had been behind her classmates in her studies and had become morbid because of her failure.

### Guilty Of Violating Federal Prohibition

TOLEDO, O., May 20.—(By the Associated Press)—Cecil H. Kern, Columbus, and W. Earl Tolholm, Cincinnati, former officials of the Victor Drug and Chemical Company, and the Essanay Chemical Company, charged with conspiracy to violate the federal prohibition law through the manufacture and sale of Victor kidney specific, which the government charged was not sufficiently medicated to be classed as medicine, were found guilty in federal court here today.

Kern, who was president of the companies, was sentenced by Federal Judge John M. Kilbitt to two years in the federal penitentiary at Atlanta and fined \$10,000 and costs. Tolholm, secretary, was sentenced to serve 18 months in the Atlanta prison and was fined \$500 and costs.

The two concerns had headquarters in Toledo with branches in several other cities of the state.

## 36,000 Fans Welcome Ruth

NEW YORK, May 20.—(By the A. P.)—Thirty-six thousand or more noisy humans welcomed to the Polo Grounds today baseball's favorite home run hitter—Babe Ruth and Bob Meusel, of the Yankees and Kenneth Williams, of the Browns.

It was the 1922 debut of all of them in New York. Ruth and Meusel were back from exile imposed by Commissioner Landis for breaching the rule against overtime labor after a world series. Williams could not have gotten here any sooner either, because the schedule was not built that way.

Nature favored the home run specialists with bright sunshine. The crowd had squeezed its way into all every foot of sun-bathed bleacher beards when the umpires called "Play ball!"

Babe struck out on his first trip to the plate in the opening inning. A week foul dropped from his club on the first pitch. Then he let a bad one go by. Shocker's next two pitches came over the plate and Babe missed both of them on bawling swings.

## OBITUARY

Harry D. Welch, Sr.

Death at 12:30 Saturday afternoon claimed one of Portsmouth's well known residents when the final summons came to Harry D. Welch at his home, Washington and Eighth streets, after a two weeks' illness of paralysis. Mr. Welch who was employed at the Selby shoe factory, suffered a stroke of paralysis on his right side. Since the stroke he had not been able to walk and was unconscious most of the time. His condition was regarded as critical ever since the first stroke two weeks ago, and death did not come unexpectedly to his loved ones.

Harry D. Welch, Sr., was born September 15, 1850, at Philadelphia, Pa., and was 72 years of age at the time of death. He had resided in Portsmouth 63 years, and most of this time was spent in the neighborhood where he died. For twenty-five years he worked in the Johnson Hub and Spoke works, and was employed in the works until the plant was destroyed by fire. Later he went to work in the stock room at the Selby factory and had been employed there until his recent illness. He was most loyal and faithful employee. He was honest as the day is long, kind and charitable to all and will be missed.

Mr. Welch is survived by his widow Mrs. Louise Welch, and three children, Harry D. Welch, Jr., of Portsmouth; Mrs. Margaret Swander, of Springfield, Mass., and Arthur Welch, of Cincinnati. He also leaves one brother, E. T. Welch, of 612 Glover street.

The deceased was the last of the charter members of Magnolia Lodge, Knights of Pythias. He was also a member of Portsmouth Camp Modern Woodmen of America.

Mr. Welch was a member of the First Presbyterian church of this city for a number of years. Arthur Welch and Mrs. Swander were called home ten days ago.

James Corwin

Death Thursday night at Mt. Logan sanitarium, Chillicothe, claimed James Corwin, of Sciotoville. Mr. Corwin had been ill two years with tuberculosis. For some months he was at Mt. Vernon, but six weeks ago went to the Mt. Logan Hospital. Mr. Corwin was born in Sciotoville, and was 54 years of age. Most of his life was spent in Sciotoville, and he was employed at the steel plant in New Boston for a long time.

Surviving are his widow, Mrs. Rose Corwin, two grand sons John and James Holland, four sisters, Mrs. Estella Yost, of Huntington, W. Va.; Mrs. Luella Compton, of Cleveland; Mrs. Davenport Manual, of Sciotoville; Mrs. Carrie Yost, of Troy, O., and a brother, William Corwin, of Louisiana.

The body arrived at Sciotoville Friday night and was taken to the home of Mrs. Manuel on Galile street. Funeral services will be held from her home Sunday afternoon at two o'clock, with Rev. Charles Reinhardt, of the Sciotoville Christian church, in charge. Burial will be in Wheelersburg cemetery.

Dr. Horace Dean

Word was received here today of the death of Dr. Horace Dean, native of Wheelersburg, who died in Columbus Saturday morning. Dr. Dean was a dentist and for several years practiced with Dr. F. C. Goodwin in this city. He was well known by the local dentists. He left for Columbus about twelve years ago and had been located there ever since.

He is survived by his widow and three children and his mother who makes her home with the son's family in Columbus. Mrs. Mary Robe of Eleventh street is a cousin by marriage and Horace Hall of Wheelersburg is a cousin. The deceased who was about 27 years of age.

The body is expected to arrive at Wheelersburg Monday noon and will be taken direct to the M. E. church there where Rev. H. A. Kirk will conduct the last rites. Burial will be in Wheelersburg cemetery.

Robert Maxwell

Robert Maxwell, well known resident of Huntington, West Virginia, and brother-in-law of Mrs. James A. Maxwell, 808 Second street, died at a hospital in that city Friday afternoon at 4:30 o'clock following an operation which he underwent Thursday.

Mrs. Maxwell left here Friday, but did not reach her brother-in-law's bedside until after he had died. The deceased had visited here a number of times at the home of his brother the late J. A. Maxwell, and has many friends here who will be grieved to learn of his death.

Wendelken Funeral

Funeral services for J. M. Wendelken, who died at his home, 1014 Eleventh street, Friday morning, will be held from the home Monday afternoon at 2:30 o'clock with Rev. C. E. Scriveringhaus of Franklin Avenue M. E. church in charge. Burial will be in Greenlawn.

## Court House

Allege Breach of Contract

The Land Office company brought suit against Mary Baker in Common Pleas court Saturday seeking judgment for possession of a house and lot on Seventh street, near Broadway, alleging breach of a contract under which the premises were sold to the defendant in August 1919.

In its petition filed through Attorneys Miller and Searl, the plaintiff claims that according to the terms of the contract in question the defendant agreed to pay a balance of \$1200.70 due on a mortgage held by The Royal Savings and Loan company in addition to \$600.23, the balance of the purchase price in weekly installments and complaint is made that the payments have not been made by reason of such defendant has forfeited her rights, it is claimed.

Seeks Divorce and Alimony

Gladie Davis, 1413 Eleventh street, charges neglect, cruelty and infidelity in her suit for divorce and alimony instituted in Common Pleas court Saturday against Ernest Davis, whom she married on February 22, 1915.

In her petition filed through Attorneys Blair and Blair the plaintiff says that Davis failed and refused to support her properly during the time she lived with him and declares that he cursed and abused her, besides, she complains that he was guilty of misconduct with other women and she names one Angela Craft. She claims that she does not know Davis' present whereabouts, but says that he was in West Virginia when last heard from.

Lunacy Complaint

A lunacy complaint was filed in Probate court Saturday against Henry Tietman, Carey's Run man, and he will be brought before Judge Gilliland Monday morning when an inquest will be conducted to determine his sanity.

Tietman is blind and has been an invalid for several months, the result of a stroke of paralysis which he suffered and in recent weeks he has developed mental trouble, it is said. He has a wife and three children.

# EXCHANGE CLUB RECEIVES CHARTER

## Judge Frank E. Ruth Makes A Splendid Talk; Banquet Enjoyed

At what will undoubtedly be remembered as one of the most pleasant evenings in its history, Exchange Club of Portsmouth last evening received from the National Exchange Club the charter emblem of the organization. The presentation was made by Judge Frank E. Ruth, of Columbus, who was accompanied to this city yesterday afternoon by a number of other Columbus Exchange members.

The presentation ceremonies were preceded by a banquet at the Washington Hotel, which was attended by the full membership of the local Exchange Club and the Columbus visitors.

Among the objects of an Exchange Club are to "exemplify the real meaning of 'Exchange' in everyday business and professional life by the maximum of service. To provide a medium for the exchange of ideas, methods, information and business courtesies. To promote and encourage good fellowship and acquaintanceship between members and their families. To take an active interest in humanitarian, civic, state and national affairs, thereby lending aid to movements tending to make the city, state and nation a better place in which to live."

Judge Ruth, in a masterly address, brought out these points, and also the meaning of the motto of the organization, "Unity For Service."

"It is only by serving, and serving to the utmost, that we may be served," he said. He explained that by a humble illustration, saying, "Go into the furnace room at your home one cold day, and tell your furnace to give you heat, and what response do you receive? But get busy, shovel in some coal, and feel the heat that you receive in return. So it is with your Exchange club. Serve, that you may be served."

Judge Ruth then emphasized the importance of environment. He said that in his long experience as a judge he had found that a very great percent of crime was caused by environment. "And on the other hand," he said, "Give men good, clean environment, surround them with other men with the right kind of aspirations, and the tendency will be toward the better things in life. Exchange clubs seek to give this environment."

Upholding to law, and upholding of the law, whether they believed in it or not, was urged by Judge Ruth. He urged that disobedience and disrespect for law bred anarchy and lawlessness. "If the majority of the people abide for a law, it is the duty of all Exchange members, and of all other good citizens to uphold it, as long as it is a law," he said.

Judge Ruth then outlined how in every important city of the country Exchange clubs are now meeting weekly, and said that they were proving an asset to each community, and were growing in power and influence. He complimented the personnel of the local club and predicted for it a bright future.

In closing his address Judge Ruth urged the local club to have an object in existence, and that it co-operate with all other organizations which are working to make Portsmouth a better place in which to live. In connection with this he urged that the local club and all other good citizens, take a greater interest in political affairs, and particularly to take a greater interest in the primaries, to see that the right men were elected to office.

To be a good Exchangeite you must stand for one another for your churches, your schools, for good government, and for everything that makes the world better," was his final thought.

Judge Ruth came to the local club a stranger, but long before he had concluded his address he had made a place for himself in the hearts of the members of the local club, who will always be glad to number him as among their friends. His address was inspiring and instructive, and his advice will be a shining beacon to help guide the busy Exchange club of the future.

Mr. Frank A. Cohnan presided at the banquet and made an ideal toastmaster. He told some humorous stories that helped to break up any formality that might have crept out, and kept proceedings moving in happy style.

The address of welcome to the Co-

lumbus guests was given by A. Graves Williams. He gave a splendid informal talk, in which he outlined some of the aims of the local club, and made a plea for unity in pushing Portsmouth that will not soon be forgotten by those present. Mr. Williams called attention to the boisterous spirit shown by residents of California, of Columbus, Huntington and other progressive states or cities, and urged that Exchangeites ever stand by Portsmouth, boost Portsmouth, and do all in their power to break up any discussion that might arise in the future which might impede the progress of our city.

"Let's all join to make our town, our home town, the best town on earth in which to live," he said, and the sentiment was loudly applauded. Mr. Williams assured the visitors they were more than welcome, and that all in the club hoped they would repeat their visit.

Mr. Russell W. Anderson, president of the club, accepted the charter emblem in a talk filled with good ideas. He pointed out that true success is not obtained at the expense of any person, state or nation, but can come only from honest exchange. He said that the greatest successes come from exchange of work, whether it be out or mental work.

Mr. Anderson also spoke of the tendency of the present day to "pass the buck," to shift responsibility, and urged the members of the Exchange Club not to dodge responsibilities, but to welcome them and to do their share toward helping to solve the problems that confront the community.

In accepting the charter emblem, President Anderson pledged that the local club will do its utmost to uphold the traditions of the Exchange clubs already in existence.

Short remarks were then made by several of the Columbus visitors.

The club before adjourning, tendered a vote of thanks to the Columbus visitors, to the Kiwanis club for flowers and best wishes, and to Orin Oakes, a member of the club, for a gift of flowers.

Music for the enjoyable occasion was furnished by Journer's orchestra.

The committee in charge consisted of N. B. Griffin, John J. Harper, James D. Williams, Russell W. Anderson, T. K. Brushart and A. Graves Williams. They lost nothing undone, and have the satisfaction of knowing the entire affair was an unqualified success.

While the members of the club and their gentlemen guests were enjoying the banquet and addresses, in another part of the hotel, a dinner and card party were being enjoyed in honor of Mrs. Ruth and Mrs. Wilson, who accompanied their husbands from Columbus. Others at the delightful affair were Mrs. Eva Selby, Mrs. Russell Anderson, Mrs. J. Frost Davis, Mrs. James D. Williams, Mrs. Heron Johnson and Mrs. Howard Harshbarger.

The members of the local Exchange club who were present at the banquet are:

Russell W. Anderson, Carl P. Bauer, George W. Breese, Thomas K. Brushart, Dr. Frank A. Cohnan, F. Wallace Drew, Eric Ferguson, J. Frost Davis, Charles M. Donaldson, David E. Gardner, N. B. Griffin, John J. Harper, W. Howard Harshbarger, W. Bentley Hitchcock, Heron M. Johnson, Russell K. McCurdy, David D. Mitchell, John L. Neudorfer, Orin B. Oakes, Dr. Harry Rupp, George M. Reitz, Henry G. Ruel, W. H. Ruggles, John J. Suddler, Charles Sampson, H. Rex Selby, George M. Taylor, Earl C. Watkins, L. Leslie White, Forrest L. Williams, James D. Williams and A. Graves Williams.

Visitors from Columbus were Judge and Mrs. Frank Ruth, B. G. Jones, Mr. and Mrs. Earl Wilson, Carl P. Kohler, A. C. Beck, W. J. Lehman and F. K. Young.

## Agricultural Notes

EDITORIAL NOTE—The Times has arranged for an agricultural department in each issue of The Saturday Times. The articles will be written by an expert and we unhesitatingly advise their careful reading. They may be of great profit to you.

Between 40 and 50 potato sprays, rings have been organized in Ohio counties this spring. Each ring consists of a group of from 6 to 12 potato growers who have purchased the spray machines and material co-operatively. Scioto County has 6 such rings.

T. H. Parks, Extension Entomologist, and N. W. Gilles, specialist in vegetable gardening, U. S. L., spent Thursday, Friday and Saturday assisting County Agent W. F. Galum in doing all preliminary work necessary in preparation for a successful year's potato spraying campaign. The six rings also mentioned are follows: Empire Grange Community, Emporium, Dan Oakes, Jas. Thompson, John D. Oakes and Dold Bros.; Sunshine Grange community, Russell, Frimley, Chas. Holt and Enos Moore; Madison community, Frank Coles, Frank Bennett, David Bennett and S. D. Eckhart; Haverhill community, Scherer Bros. and Geo. Selby; Lucasville, Zaler Bros.; Vernon community, Jacob Buser, D. P. and Floyd Lemon.

The potatoes are sprayed with 3 nozzles per row at intervals of two weeks during the growing season. Bordeaux mixture and arsenate of lead are the materials used. Specialists from the Ohio State University, who in 1921 supervised 44 such demonstrations in cooperation with the local farm bureaus, report an average increase of 31.6 bu. per acre for the spraying. Many growers received from 40 to 60 bu. increase per acre at an expense of \$10 per acre for labor and spray costs. The chief trouble corrected by the method has been the damage known as "blight" or "top rot." This is a premature dying and rolling of the margins of the leaves while the potatoes are forming. Sprayed potatoes were able to remain green and healthy longer than unsprayed fields, and with sufficient moisture paid handsome returns for the spraying. The spraying will be continued when the plants are eight inches high and repeated at intervals of two weeks until four or five applications are made.

**Fertility Demonstration for Canning Tomatoes**

Wm. Freeman and Son, of Otway, are cooperating with the County Agricultural Agent and Extension Department of the Ohio State University in carrying out a demonstration on tomatoes grown for the canning industry. The demonstration is being carried out at Otway, using fertilizers having varying amounts of phosphorus. This is a premature dying and rolling of the margins of the leaves while the potatoes are forming. Sprayed potatoes were able to remain green and healthy longer than unsprayed fields, and with sufficient moisture paid handsome returns for the spraying. The spraying will be continued when the plants are eight inches high and repeated at intervals of two weeks until four or five applications are made.

The entire demonstration will take in an acre and various cultural methods recommended by the Extension department will be carried out. The plants have been sprayed once in the seed bed and will be sprayed the second time before setting to the field to insure clean plants.

**Melen Growers are Applying Dusting Mixture for Striped Beetles**

Moore Bros. of Waverly, who have four acres of the earliest planted watermelons in Pike Co., have successfully conquered the striped beetles with a poisoned dust mixture. After several days of well directed effort with 100 lbs. of poisoned dust, the melon beetles have been driven from their field. They are using the dusting mixture developed for this purpose by the Ohio Agricultural Experiment Station. This consists of a thorough mixture of one part by weight of arsenate of calcium to 20 parts gypsum. This was found to be superior to twenty-five different materials and compounds tested at Marietta by the Ohio Station.

The dust acts as a poison, repellent and fertilizer. It may be applied with a simple home-made shaker or with a hand dust gun. The first application is made as soon as the first melons come up and before the beetles appear. It is necessary to keep the young plants covered with the dust by applying 2 to 5 times per week during the period when the beetles are plentiful.

Information and materials can be secured at the Scioto County Farm Station. Those who have successfully fought the pests should come through the ground and apply the dust frequently during the first two weeks of growth. Usually 10 to 12 applications per season are required.

**COLUMBUS, O., May 20**—How to keep peace in the chicken house is told by E. L. Dakan, professor of poultry, Ohio State University. He points out that few poultry raisers are able to prevent chicks which are confined to the brooder house from pecking at each other, eating toes, tails, wings and the like.

According to Dakan, there are just two reasons for chick eating: "Malnutrition, and overcrowding. 'Malnutrition,' continues Professor Dakan, "is due to a deficiency of the essential and vital elements for growth causing the chicks to pick at living objects. A drop of blood starts and satisfies this craving for animal food. Chicks confined to the brooder do not get grass, roots, bugs, and other food which nature supplies in the spring of the year."

"Overcrowding in the brooder sometimes leads to cannibalism because the chicks may not get an even share of the feed given, and consequently their hunger and craving for the element deficient in their ration, causes them to start the habit of pecking at their fellows."

Dakan advises that cannibalism may be prevented by using three measures:

Keeping sour milk before the chicks from the very first, which will supply the necessary animal protein.

Feed chicks plenty of green stuff, such as sprouted oats and vegetables when it is impossible to get them on range.

When the hudd is been formed, or the deficient ration fed for a longer time, and an immediate cure is sought, fresh pork rind may be fed raw.

Dig up chunks of green sod and place in the brooder.

Place the chicks out of doors on every occasion possible even though it be only an hour at a time.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

Do not try to brood too many chicks.

In one flock. Three hundred, or even 200, under one store is enough for the average poultryman.

"Apple and other fruit trees well nourished by early spring applications of readily available nitrogenous plant food, possess a greater ability to carry their blossoms safely through seasonal hardships due to dangerously low degrees of temperature than do trees of comparatively low vigor caused by lack of proper nourishment," says a recent statement from the Ohio Experiment Station.

This conclusion arrived at after a survey of orchards in the southern half of the state, which showed that orchards which had been timely and generally fertilized with nitrate of soda or sulphate of ammonia, carried by far the larger per cent of uninjured blossoms, the statement went on.

It also pointed out that certain varieties possessed a greater degree of resistance to cold than do others blooming at the same time. The Jonathan, a comparatively early blooming variety, showed an ability to withstand the ravages of freezing temperatures of early spring, almost equal to that of the Rome Beauty, an

unusually late blooming variety, which usually comes through with a large number of uninjured blossoms.

"Airing, as well as turning the eggs during incubation, is absolutely necessary for the production of strong, vigorous chicks," said Prof. F. S. Jacoby of the poultry department, Ohio State University. "Turning insures an even development and prevents any parts from adhering to the shell, while airing or cooling has a strengthening effect upon the embryo because of the fresh oxygen drawn into the egg."

"The necessity for turning, is apparent from the third to eighteenth day of incubation, three times a day, morning, noon and evening. Eggs should be aired once a day, preferably at noon, the length of time depending upon the development of the embryo, and the temperature of the room in which the eggs are placed. It will vary from two to three minutes for eggs five days incubated early in the season, to 45 minutes for 18-day eggs in the late spring, or early summer. Turning by hand undoubtedly is better than automatic devices, and if done once a day, in addition to the other turnings, there will be a marked decrease in the number of crippled chicks."

**Baseball Fans, Take Notice**

Kara gave a word of cheer for baseball fans last night while answering a question of a sportsman when he said that as far as present indications were the form of athletics under contemplation here now (revival of the Industrial League) would meet with success.

**Tonight Last Appearance**

Kara will make his last appearance this season in Portsmouth tonight at the Columbia theatre. To see a backneyed expression, his performances here have been "highly educational as well as entertaining." You say odd stuff, but it covers a lot of territory.

 A. T. Cyfers, Superintendent.  
 Sunday school, 9:00 a. m. A. F. Cyfers, superintendent.  
 The lesson shows how by reading the Bible a reform was worked in ancient Judah. Christians are the only Bible. A careless world will read. Christians can not live in it unless they know it. Let us study it together next Sunday in the Sunday school and church. At the morning public service there will be a short sermon, followed by the Sacrament of the Lord's Supper. Services begin at 10:15.  
 Evening service at 7:00. At this hour a special discourse will be delivered on the timely subject, "My Neighbor the Workman."  
 This is a friendly address, especially adapted to the wage-earner. We extend a cordial invitation to railroad, shop and factory men and hope all other classes will have representatives present. We expect to make it workingman's night. The Orpheus Male Quartet will sing.  
 Amos Foor will conduct the Epworth League service, which begins at 6:00. Subject, "Growing a Character—The Growth."

**TRINITY METHODIST**  
**EPISCOPAL CHURCH**  
 The Sunday school will study the lesson, "The Bible in the Life of a Nation." The great attendance of last Sunday indicates that such a number is due on all occasions. All departments should show a stimulated growth on tomorrow.  
 At the morning worship, 10:15 o'clock the pastor will speak on "Uniform Lessons vs. Graded Lessons." The special music will be an anthem, "Sing Unto the Lord a New Song," by Brown, and a solo, "Let Not your heart be troubled," by Mr. Vaughn Finney.  
 At two p. m. the Junior Epworth League will hold its praise and study service, to be led by Mrs. C. N. Smith.  
 The Epworth League topic at 6:30 p. m. will be "Growing a Character: The Growth." Mark 4:23-28. The leader will be Mr. Bruce Thomas.  
 At the evening service the pastor will pursue the study of the progress of the century by the use of a stereoscopic lecture upon one of the wide Mission Fields. The special music will be, "House Ye," from "The Carpenter of Nazareth," by Hayser, and a solo by Mr. Leon Marshall.  
 The public is cordially invited to these services.

**Words of Wise Men**  
 Better buy than borrow.  
 All happiness is in the mind.  
 All things move in cycles.  
 Beware of little expenses.  
 Be slow to promise, quick to perform.  
 An artist lives everywhere.  
 Fear is a bad counselor.  
 If you are in doubt, delay.  
 A stout heart crushes ill luck.  
 Take good counsel and keep it.  
 Be not hasty to outbid another.  
 Conscience cannot be compelled.  
 Dispatch is the soul of business.  
 A willing mind makes a light foot.  
 Work ill done must be twice done.  
 A silver key can open an iron lock.  
 Difficulties are spurs to a brave soul.  
 Nothing is done until it is finished.  
 Deliberate slowly, execute promptly.  
 Amendment is repentance.  
 Cut your coat according to your cloth.  
 All truth is not to be told at all times.  
 Confidence is the companion of success.  
 No man is wise or safe but that he is honest.  
 It is well to be confident, best to be sure.  
 Keep your courage up and your temper down.  
 Mean men admire wealth, great men glory.  
 How many fetters we willingly wear because they were forged by our forefathers.  
 A man is rich in proportion to the number of things he can afford to let alone.  
 The lover sees in the glance of his beloved the same beauty that in the sunset paints the western skies.  
 The inner vision lifts reality into the higher sphere of truth—a transfer wherein lies the true genesis of poetry.

**Words of Wise Men**  
 Friendship is a plant that needs watering.  
 None so arrogant as the beggar audaciously rich.  
 Give man the earth—he reaches for the stars.  
 Two brave men pulling together are a four-horse team.  
 A great artist can paint a great picture on a small canvas.  
 Talent repeats—genius creates.  
 Learn the luxury of doing good.  
 Great ships require great waters.  
 Conduct hath the loudest tongue.  
 Inquire not what is in another's pot. Ignorance and fear go hand in hand.  
 Don't pluck the apple until it is ripe.

**Words of Wise Men**  
 Friends here of Mr. and Mrs. J. W. Rogers, who formerly conducted the Rogers' Hotel at Mineral Springs, will be pleased to learn that they will again take up the management of that popular hostelry. They will re-open it possibly next week and will conduct it along the same successful lines they formerly pursued.

**Will Reopen Rogers Hotel**

They will re-open it possibly next week and will conduct it along the same successful lines they formerly pursued.

**Greenup May Get New Race Course**  
 It was learned Saturday that persons interested in the building of a race track 4 miles east of Greenup have optioned the Walker and Fisher tracts in that vicinity and plan to build a race course that would represent an outlay of a big sum of money. The promoters have so far failed to reveal their identity but gave out the information that the options had been taken for race track purposes. An effort was made recently to open a ground near Ashland for the same purpose but it was given up when the Ministerial Association of that city raised an objection.

**UNITED BRETHREN QUARTERLY CONFERENCE**  
 Word has been received from Conference Superintendent J. H. Harris that the last quarterly conference for the local United Brethren congregation will be held Monday evening at seven-thirty.  
 The superintendent urges all officials, presidents and treasurers of the different organizations to be present with written report of the work accomplished since last September.  
 The local congregation has had a splendid year in all departments and a large number is expected to be present at this meeting.

**Musical Features At Second Presbyterian**  
 Special musical numbers are to be rendered at the Second Presbyterian church Sunday morning. The program follows:  
 An anthem by the choir: "Twenty-Fourth Psalm."  
 A solo by Miss Bertha Blood, entitled: "Send Out Thy Light," by Hawley, and a duet by Mrs. James Breece and Mrs. James Williams—"In Heavenly Love Abiding."

**MUSIC AT FIRST PRESBYTERIAN CHURCH**  
 A program of sacred music is to be given Sunday evening at seven o'clock at the First Presbyterian Church. The music Sunday evening is to be of the high class order for which First Church is already well known in Portsmouth. In addition to the regular quartette composed of Mrs. O. J. Deltzler, Mrs. Chas. L. Stock, J. E. Lodwick, and Wm. H. Schwartz, several others will assist. Miss Esther Thornton of Indianapolis, Indiana, will sing, "Come Unto Me," then, Mrs. F. B. Winters and L. A. Severinghaus, "The Lord Is My Light," Matthew 23. Mrs. Norma Hark Duggan will render Randegger's "Save Me, O God." The complete program will appear in Sunday's edition.

**Steamer "East St. Louis"**  
**Forced To Shore By Wind**  
 GALLIPOLIS, O., May 20.—A wind storm on the Ohio river near Point Pleasant late yesterday forced the excursion steamer East St. Louis to shore where its passengers remained all night.

**To Modernize School Building**  
 Architects Devoss and Donaldson have been commissioned to prepare plans for an addition to be made to the McDermott school building. It will contain an auditorium, 35 by 70, gymnasium, three study halls and three recitation rooms. When completed McDermott will boast of having one of the most modern temples of learning in the county.

**Will Reopen Rogers Hotel**  
 Friends here of Mr. and Mrs. J. W. Rogers, who formerly conducted the Rogers' Hotel at Mineral Springs, will be pleased to learn that they will again take up the management of that popular hostelry. They will re-open it possibly next week and will conduct it along the same successful lines they formerly pursued.

BEGIN HERE TODAY

After five years of married life, LUCINDA DANCE, New York society matron, concluded that wealth, youth, beauty, social position and sterner love, were not sufficient to hold the affection of her husband, BELAMY DANCE. Weak-willed and selfish, Bel had been guilty of a series of escapades in which promiscuous flirtation and drunkenness had combined to humiliate his wife.

A broken promise to reform causes Lucinda to leave him. Bel follows her to Chicago and is prevented from forcibly restraining her from going to Reno by the intervention of an unidentified young man.

On the train, Lucinda meets her old friend, FANNY LONTAINE, who with her husband is going to Hollywood, where HARRY LONTAINE is thinking of forming a motion picture company. She learns that the young man who assisted her in escaping from Bel is also on the train and that he is LYNN SUMMERLAD, a prominent screen star.

GO ON WITH THE STORY  
Seated in Section 10, waiting for the porter to bring back his personal impediments from the drawing-room, Harry Lontaine turned a handsome face to the window, frowning absently, the nervous frown of a man whose cleverness has never proved quite equal to the task of satisfying appetites at once strong and fastidious.

From this delectable realm the dreamer was recalled by consciousness of somebody standing in the aisle and staring impudently. Lontaine was too diligent a student of motion-pictures not to know at sight the features of Lynn Summerlad, by long odds the most popular male star of the American cinema. A personage worth knowing. . . .

Misreading his expression, Mr. Summerlad felt called upon to apologize.

"Beg your pardon, but I was expecting to find a lady in this section, I may say a friend: a Mrs. Druce. Do you by any chance—?"

LYNN SUMMERLAD made a fourth at the bridge table set up that afternoon in the Lontaine drawing-room; invited by Lontaine as an acquaintance of Lucinda's and a grateful addition to the party because he played something better than merely a good game.

Not only "fearfully easy to look at" (as Fanny confided to Lucinda) but fair spoken and well, if at times a shade carefully mannered, he was intelligent and ready of wit.

By nightfall of the second day it was possible for Lucinda to make up her mind that she liked Lynn Sum-

merlad decidedly. True that he was not of her world; but then neither was she herself, any longer, in this anomalous stage of the apostate wife, neither wife nor widow, not even honest divorcee. As she read it, Summerlad's character, as she read it, had faults, if an occasional crudity flawed his finish, these things were held to be condonable in view of his youth. He seemed ridiculously young to Lucinda but sure to improve with age, sure to take on polish from rubbing up against life. Especially if he were so fortunate as to find the right woman to watch over and advise him. An interesting job, for the right woman . . .

Not (she assured herself hastily) that it would be a job to interest her. An absurd turn of thought, anyway. Why she had wasted time on it she really didn't know. Unless, of course, its incentive had lain in consciousness of Summerlad's naive captivation. One couldn't very well overlook that. He was so artless about it, boyish, and—well—nice. It was most entertaining.

It was also, if truth would out, far from displeasing. "I've got a great favor to beg of you, Mr. Summerlad," said Lucinda as they sat alone—on the observation platform one evening.

"Can't make it too great?" "Fanny and I were discussing it this morning. Bel—Mr. Druce—is sure to follow me to Los Angeles and make more scenes. I'd like to avoid that, if I can. Help me choose a good, safe name de guerre, please."

"Let's see," Mrs. Lontaine calls you. "Short for Lucinda?"

"How about Lee? Lucinda Lee?" "I like that. But it does sound like the movies, doesn't it?"

"What do you expect of a movie actor, Mrs. Druce?" "Mrs. Lee, please."

"Beg pardon, Mrs. Lee." And it was as Lucinda Lee that she registered the next morning at the Hotel Alexandria in Los Angeles.

On the afternoon of their arrival, Lucinda, accompanied by Summerlad and the Lontaines, drove to the Zinn studios, where the famous Summerlad pictures were taken. The working premises lay behind the administration building. But here Lucinda noted few points of close resemblance to the Culp studios. A field several acres in extent about half in turf, was surrounded by a stately village of glass-roofed stages and structures housing the technical and mechanical departments—a laboratory, a costume's, property, carpenter and scene-painting shops, directors' offices, dressing, projection and cutting-rooms, a garage, sheds to shelter motor-cars, and trucks by the score, stables, a small menagerie, a huge tank for "water stuff," a monolithic fireproof vault of cement for the storage of film.

"Well, Mrs. Lee: what do you think of a California studio? Not much like what you've seen back east, eh?"

"It is most marvelous. If they're all like this, I don't wonder people are mad to act in motion-pictures. If Mr. Culp had promised me anything like this, I don't believe I should have had the courage to refuse."

"It's not too late to change your mind, Mrs. Lee," Lontaine suggested. "In fact, if I thought there was any hope you would, I'd go down on my knees to you. Oh, not to act for Culp, but for me; or rather, for yourself, as the head and the star of your own company. No: I'm serious. I've been talking with several people today who want me to try producing out here. I can get an unlimited capital to back me. This country is crying for better pictures—and I know how to make them. I can bring to the American cinema the one thing it needs, a thorough knowledge of European methods. There's only one thing makes me hesitate, the lack of a suitable star."

"Why pick on me?" Lucinda laughed. "I'm not even an actress."

"Ah! you forgot I've seen you prove on the screen what you can do. You don't know yourself, Mrs. Lee. You need only two things to make you a great, a good director, and self-confidence."

"Aren't you running a great risk, making such flattering overtures to an untried, unknown amateur?" "Don't worry about me. If I had any hope of being able to persuade you to try it on, I'd tell you to name your own terms, and shoulder the risk without a murmur."

Lontaine's earnestness was so real that one might no longer meet his arguments with levity. There was a strained look of anxiety in the blue eyes, a restrained passion of pleading in the ordinarily languid accents.

Fanny, too, was apparently hanging between hope and fear. . . .

"But you can't be serious! Do you really want me to become a movie actress under your management?" "You can think of anything I wouldn't do to persuade you."

"Why not, Mrs. Lee?" Summerlad urged. "It would be great fun for you; and you can't fail, you can't lose anything. If you only knew how inferior most stars are to you in every way. . . ."

"And if you should fail, Cindy?" Fanny chimed in—"what does it matter? Who would know? It would be you, it would be Lucinda Lee."

"No," Lontaine insisted: "I've got a better screen name than that for her. Not Lucinda: Linda Lee."

"Come, Mrs. Lee: say you'll try it on, if only for the lark of it."

"If I should, Mr. Summerlad, it wouldn't be for fun."

"So much the better."

"Then you will?" Lontaine persisted. "Do say yes."

"Let me think. . . ."

And why not? Lucinda asked herself. She was alone in the world, lonely like those good friends who needed her help, or seemed to. It would be good fun, it would be interesting, it would satisfy a need of which she had been discontentedly aware even in the days when she had yet to dream of leaving Bel.

And—even as Fanny had urged—if she should fail and have to give it up, who would care what had become of "Linda Lee?"

"Very well," she said at length, with an uncertain smile—suppose we try."

XVII  
T O-morrow morning's star of the screen, Linda Lee!

Thus Lynn Summerlad, mildly excited, graceful and gracious even beyond his studied habit, flourishing a glass of California champagne above the dinner table in his bungalow at Beverly Hills.

The toast went by acclamation, and Lucinda laughed, at once gratified, diverted, and disposed to depreciate the spirit of these felicitations as premature.

A phrase of Culp's recurred unbidden: "A lot of kids, that's what we got to make pitchers with, a lot of kids."

It was childish, in a way; on the other hand, it was undeniably pleasant to think of oneself as a sort of Sleeping Beauty of the screen only waiting to be awakened to vivid life by one wave of the witching wand and self-confidence.

Summerlad had been talking of his early screen experiences and flashed an apologetic smile. "One of the worst faults we movie actors have, Mrs. Lee, is talking about our salaries. So I won't say any more than this: outside of the Big Four—Mary and Louise and Charlie and Bill Hart—there's mighty few that drag down as much green money a week as I do."

"I'm glad to absolve you of the sin of boasting, Mrs. Summerlad."

"I suppose that did sound funny. . . . You wouldn't guess who the director was who gave me my first engagement? Barry Nolan!"

The name was apparently known to Lontaine, for he exclaimed, "You don't mean it?" as if no more exciting information had come to his ears in many days.

## Toledo Woman Relates Facts About Her Case

Mrs. John Combs Gains 15 Pounds and is Entirely Relieved Of Rheumatism Since Taking Taulac, She Declares.

"I shall always keep a bottle of Taulac in the house," declared Mrs. John Combs, 43 Nevada St., Toledo, Ohio.

"For six months my stomach was in such bad condition it didn't matter what I ate it would cause such terrible indigestion I could hardly stand it, and I couldn't eat some foods at all. My nerves were so on edge that nearly every night I would just roll and toss without sleep and when I got up I had such terrible rheumatic pains I could hardly stay up."

"But Taulac built me up fifteen pounds and I now can do my housework with ease. Those terrible rheumatic pains have disappeared and I can sleep like a little child. My appetite is so good I can eat almost anything, I have perfect health and I give Taulac all the credit for it."

Taulac is sold by all good druggists.—Advertisement.

Flood Makes Canadian City a New World Venice

When floodwaters of the Assiniboine River invaded Brandon, Manitoba, the city's 25,000 people had to take to the upper stories. They're still "treed" there, depending on rafts and boats for their food supply. In some streets the water is eight and ten feet deep.

## Public Welcome Organized For British Premier More Partisan Than National

LONDON, May 20.—(By the Associated Press)—There is every prospect that the public welcome organized for Premier Lloyd George on his arrival from Genoa tonight will be memorable. It will, however, apparently be a partisan and not a national welcome, for it is not a case of a universally popular statesman returning laden with the achievements which the whole nation is yearning to see garnered from the economic conference.

The days of solid national support for Mr. Lloyd George vanished soon after the war and he has long since reverted to the position of a political leader.

Today's editorials on the break-up of the conference are significant as bearing upon the prime minister's position. On one hand he is adversely criticised for his farewell address at Genoa and for the greater part of the other hand he is praised for his courage and resourcefulness in the face of immense difficulties and for what his admirers term his considerable achievements, even though they fell short of his aims.

As for the conference itself, even its strongest apologists do not claim that it has been a success, but look to the coming meet at The Hague for a sequel of real value. Its enemies have hardly a single good word for it, especially those who from the first opposed admission of the soviet delegates to the council table. These pronounce it a dismal failure and welcome its end.

The Times hopes that "the conference's collapse will be the beginning of a return to common sense" and the Daily News says "It is necessary to face frankly the fact that the conference has failed. It has taken no action that will leave any sensible impression upon the face of Europe."

## MAY POLE MUSIC ALE DRAWS CROWD

The May Pole Musicale given at the Pleasant Green Baptist Church under the direction of Mrs. Nettie Williams drew a large and appreciative audience. The May Pole Musicale by three small children showed the skillful hand of training and they went through the performance in fine fashion. In addition to the children's exercises there was a reading by Mrs. W. W. Barnes, a solo by Miss Grace McKinney and an instrumental solo by Miss Viola Grant. Quite a sum was realized by the entertainment and this will be placed to the credit of the building fund.

## Mercy Hospital Boosters Ready For Big Drive Which Opens Next Tuesday

Edward T. Reed, general chairman of the New Mercy Hospital campaign, and who is to direct the drive for \$200,000 for the erection of the hospital and Training School for Nurses, starting next Tuesday, was all smiles, Friday evening when at the conclusion of a well cooked and elegantly served fish dinner at the United Brethren church, he faced a crowd of nearly 100 of the leading citizens of this fair city, who have volunteered their services in an effort to raise the necessary funds. In fact, the meeting in point of numbers, far exceeded the most sanguine hopes of the chairman and other workers, thus proving in no unmistakable terms that the people are rallying to the task and are ready for the testing time.

Chairman Reed instructed the team captains and their workers as to their duties during the campaign, and he was given close attention. That the campaign has been well planned, was shown by the systematic way matters moved off. There was not the slightest hitch or jar and those who are behind the movement are now, even more than ever, congratulating themselves that they selected Mr. Grant Sherman Whitlamar, one of the country's most noted experts to direct the work. The captains and workers feel confident the goal will be reached and some are expressing the opinion that the quota will be raised if not exceeded before the close of next week. As has been the case at every meeting, enthusiasm ran high and the workers are now ready for the bell to tap and festivities to start.

However, there will be another meeting of captains and workers at the U. B. Church on next Monday evening, May 22, at 8 o'clock, when final instructions will be given and everything lined up for the work of solicitation, which is to start on Tuesday morning, May 23. On each

## Red Cross Needs Funds To Help Families Who Suffered Heavy Losses From Floods

Finding tasks in the flood stricken valleys of the Illinois, Ohio and Mississippi Rivers that need many workers, and suffering the relief of which will cost many thousands of dollars, the American Red Cross which has extended its helping hand to the devastated sections, is making an appeal to the American people for money to help alleviate the suffering. The local chapter of the organization has taken up the work along with the chapters in every city in the country and is making known the following facts, ask that any man or woman who feels able and willing to lend their help in the great work for the suffering thousands, make their contributions to the local chapter on the seventh floor of the First National Bank Building, or send the money direct to the National headquarters of the American Red Cross at Washington, D. C.

Judge John Barton Payne, chairman of the National Red Cross, has issued the following appeal: "Floods in the valleys of the Ohio, Illinois and Mississippi Rivers have caused death, great loss of property and thousands of families to be without shelter, food or proper clothing. Thirty one thousand homeless are being fed by the Red Cross in the state of Mississippi alone. The Red Cross has quickly organized relief work with the help of local committees at many places in Illinois, the states of Arkansas, Mississippi and Louisiana. The first needs have been met by National Headquarters appropriations of approximately one hundred thousand dollars.

"There is great work to be done until the stricken people who have lost their all can be reestablished in home life. At least five hundred thousand dollars will be required by the Red Cross. There should be generous assistance for these struggling communities and the health and comfort of destitute men, women and children, should have every possible attention.

"The chapters are requested immediately to solicit contributions to be administered by the National Organization of the American Red Cross through the state and local committees which it has organized or through which it is discharging responsibility for relief work.

"Contributions may be made for use at any designated place or in any specific territory or for distribution according to the actual necessity for help at the discretion of the National Organization, Chapter officials will report and forward the money which they collect to Chapter Service, National Headquarters, American Red Cross, Washington, D. C.

The following letter has been received by the National Red Cross by President Harding: Honorable John Barton Payne, American Red Cross, Washington, D. C. My Dear Judge Payne: I have observed with much interest and pleasure the prompt and effective work which the Red Cross is doing for the relief of acute suffering in the flooded areas of the Missis-

NEW PHILADELPHIA, O., May 20.—(Special)—Discussing taxation in Ohio, Hon. A. V. Donahey, former State Auditor and candidate for the Democratic nomination for governor of Ohio, said today:

The average business man, farmer, or laborer is not familiar with the detailed operation of his government and the further the government is removed from him the less he understands it. They do know, however, that conditions are abnormal, something is wrong. Some blame it on one thing and some on another. The laboring man says "My wage is not commensurate with the cost of living." The manufacturer says, "If I cannot employ my labor and capital and receive a reasonable return from the same, I will shut down my factory." Unnumbered small dealers, farmers, and business men are in between the laborer and the manufacturer and insist upon having a reasonable profit for their labor. So it goes, pro and con, each trying to fix the blame somewhere, somehow.

Taxes Took Big Jump Our economic system was working comparatively well before the war in times of peace, and seemingly taxes were spread and absorbed in a more equitable manner principally because there was not so much of it. But since the war began taxes have increased 100 to 500 per cent and according to our present procedure will continue so for a quarter of a century—there is no escape except through action of the people because government must function and annual interest charges on tens of billions

of dollars of debt must be paid promptly and it takes tax money from the people to do it.

Two Plans of Taxation Government employs two principal plans in taxing the people for its support. The first plan is called direct taxation and all taxes under this rule are paid semi-annually to the county treasurer of each county, and for the eighty-eight counties of Ohio on the duplicate of 1921 amount to two hundred and twenty million dollars, all of which is consumed by county, city, school, village and township government, except about thirty-six millions that go to state government and are distributed for good roads and education.

The second plan is called indirect taxation and is composed of assessments against corporations and individuals engaged in special business undertakings. The state government of Ohio receives from all sources other than direct taxation about 30 million dollars per year.

The Federal government at Washington collects from the forty-eight states in indirect taxes about five billion dollars per year, and the end is not yet. These state and national indirect taxes are collected by hundreds of employees and agents attached to bureaus, boards, commissions and departments authorized by law to collect the same, and the overhead is enormous. Indirect taxation as operated is unscientific and works silently, always increasing, never decreasing, and each session of Congress and each session of the Ohio General Assembly enact new indirect tax laws to pluck more taxes from the people.

How Indirect Taxation Works Let us take an average Ohio citizen and observe how indirect taxation affects him, and the effect will be the same whether he is a banker, farmer or laborer, without regard to whether he pays a direct property tax or not.

FIRST—If he rides on a railroad or street-car line located in or passing through Ohio, he should know that such companies combined pay an indirect tax of about five million dollars per year to the state.

SECOND—If he buys anything from a domestic corporation doing business in Ohio, he should know that they pay in domestic and initial fees over five and one-half million dollars per year indirectly to the state.

THIRD—If he uses gas in his home and pays water rent to a privately owned company, he should know that these combined Ohio companies are compelled to pay over six hundred thousand dollars per year, indirect taxes to the state government.

FOURTH—If a citizen uses electric lights and power in his home, he should know that such Ohio companies pay indirect taxes to his state aggregating four hundred thousand dollars per year.

FIFTH—If he has a telephone in his home or sends a telegram, when he pays for this service he should know that these Ohio companies pay an annual indirect tax of about four hundred thousand dollars per year to the state.

SIXTH—If he insures his property or life, he should know that the insurance companies doing business in Ohio pay an indirect tax to the state of over two and one-half million dollars per year.

SEVENTH—If he patronizes an express company he should remember that such companies pay about one hundred thousand dollars per year in indirect tax to his state.

EIGHTH—If he requires the services of a lawyer, doctor, dentist, druggist, nurse, eye specialist or undertaker, he should know that these professional men are licensed by the state and pay an indirect tax.

NINTH—If he buys fertilizer for his garden, lawn or farm from a local dealer, he should know that the producer pays an indirect tax to the state.

TENTH—If he takes his family to the movies or a circus, he should know that his state collects from these concerns about one hundred thousand dollars per year in indirect taxes.

ELEVENTH—If he owns a dog, he should know that dog owners of Ohio contribute about three hundred and fifty thousand dollars per year, in indirect tax.

TWELFTH—If he enjoys hunting, he should know that Ohio sportsmen pay over two hundred and sixty thousand dollars per year in indirect tax to the government under which he is domiciled.

THIRTEENTH—An Ohio citizen should know that persons who smoke cigarettes contribute about five hundred thousand dollars per year indirectly to the state.

FOURTEENTH—If he owns, or rides occasionally in an automobile, or uses a truck, he should know that about seven million dollars for license tags is collected indirectly by the state and distributed back to the taxing districts into which it originated.

Many Kinds of Taxes FIFTEENTH—If he patronizes a hotel or restaurant, he should know that they pay an indirect tax and are licensed by the state.

SIXTEENTH—If he buys a mess of fresh fish, he should know that fishing boats are licensed and indirectly taxed by his state; and that motor and row boats used on the inland lakes of the state are indirectly taxed.

SEVENTEENTH—If he takes a bath in a public bath, he should know that the bath is licensed and indirectly taxed by his state.

EIGHTEENTH—If he takes a ride in a public car, he should know that the car is licensed and indirectly taxed by his state.

NINETEENTH—If he takes a ride in a public car, he should know that the car is licensed and indirectly taxed by his state.

## Doctrinal Differences Discussed At Methodist Ministers' Meeting

(Reported at the Request of the Portsmouth Times, by John Collins Jackson.)

It is safe to say that never in the history of Columbus Methodistism was there such an interest felt in any theological discussion as that arising out of certain purported utterances of two of that city's leading Methodist pastors within the past few weeks. Rev. Walter E. Burnett, D. D., pastor of Broad street Methodist Episcopal church, and Rev. Burt D. Evans, D. D., pastor of Franklin Avenue Methodist church, were the ministers whose doctrinal positions aroused the public mind. The excitement was not limited to denominational lines, nor to central Ohio. Two, or three pastors of other denominations, in Columbus, were the most severe in their condemnation of these men. In fact, their denunciations were very bitter, and in strong contrast to the Christian attitude of their offenders. The echoes of the controversy were heard all over Ohio, and thru many adjoining states. And yet when all the facts were known, the whole affair might well be entitled, "Much Ado About Nothing."

It arose mainly out of misrepresentation, misunderstanding, and snap judgment displacing calm inquiry. This will appear from what follows in an attempted impartial report.

First of all, it is not true that these men were "called onto the carpet," as sensational headlines indicated. The hearing was not even an investigation, much less an ecclesiastical trial. The two ministers themselves requested that their brethren would hear what they actually had said, and the regular order of the day of the Monday Methodist Preachers' Meeting was suspended for their accommodation. So widespread, however, had been the sensational reports of the utterances of these men, that ministers from Zanesville, Newark, Granville, Thornville, Delaware, Plain City, Washington C. H., Circleville, Chillicothe, and Portsmouth, with many minor points within this circle, were at the meeting. Many of these had been interviewed by their disturbed parishioners, and while they had all confidence in the character of their brethren, they did not feel that they could pronounce fairly on the merits of the issues till they knew precisely what they were. Perhaps near one hundred Methodist ministers, with some laymen, also, were in attendance at the meeting, held in Central Methodist Church, Columbus.

"The Theological Seventeen."

This title is not the real name of the organization to which the two ministers belong. As another of their number stated that day, their "Theological Institute" was not organized with any assumption of combative ends, but with the thought instead, of harmonizing doctrinal views among different denominations. Episcopalians, Presbyterians, Baptists, Disciples, Congregationalists, Methodists, and perhaps others, are among its seventeen members, as your reporter understood the speaker to say. They meet to compare views, and emphasize the points on which they agree, and to treat with entire Christian courtesy those who differ from them. Their meetings have been seasons of true brotherly fellowship free from all rancor, and seeking to create publicity rather than to invite such notoriety as unfortunately attended this event. At the same time, in the meetings of this special session, the public were invited to hear the attractive program, which involved various topics of general interest to the public, by specialists in the line of each subject. Naturally the most of these questions were of such a nature that but little notice would be taken of them by the daily press.

Other topics, however, involved views that are but little known by the laity, because they are not taken into the pulpit, and the average layman gets his theology from that source. It is very natural that intelligent, reading ministers, who keep abreast of modern thought, should in time become so familiar with certain advanced tenets as to forget that what is common-place to them may be alarming to the uninformed, both in the ministry and the laity.

And that is exactly what happened. Reporters on the scene—properly so of that which will be interesting to their readers, naturally asked for opinions of these papers which they heard, and which they knew would appear at least once to the general public. And, while the Institute desired no public display of their individual opinions, some of its members wanted to be accommodating to the press, to whom they felt the Church in general to be indebted for news favors in its work. Then, in spite of attention being called to certain things which were only quotations from other authors, thru hurried type-setting, or inadvertent proof-reading, or some other cause, these same quotation marks were omitted, and headlines thereby became as misleading as they were sensational. Out of that combination of elements was generated the tempest that raged, which some good, excited people imagined would blow the doctrinal heads off of certain pastors, and which others, more conservative, seemed fondly to wish would happen. In their well-meant zeal for the gospel, some ministers felt that "the wrath of man worketh not the righteousness of God." As many laymen mistake their fears for faith, and abuse for argument, and wrote letters as full of venom that the editor of The Ohio State Journal would not allow his paper to be polluted with their spite. All of these known and un-

known detractors will in time see their errors and regret them.

### Methodism's Liberty

Rev. B. D. Evans spoke for forty minutes. He showed the doctrinal tolerance and magnanimity of John Wesley, the founder of the movement called Methodism, quoting from his own writings. He also showed from many volumes how that spirit is perpetuated in the course of study for ministers, endorsed by the Methodist bishops of today. It was a striking and indisputable train of testimony fully warranting what he had really said, in the opinion of many besides himself.

The offensive expression charged against him was, in substance, that "the Theological Institute throws aboard the belief that four or six thousand years of history takes us back to the Mythical Garden of Eden; and that the belief in the Virgin Birth is not sustained by sufficient evidence to make it a test of saving faith in the Christ." The challenge of the Virgin Birth dogma was a quotation from another author, but not so printed in the press. This Dr. Evans showed by his original manuscript unaltered in a single iota.

Rev. Dr. Burnett followed, sustaining by further citation from Methodist authorities that both men were within the area of modern Methodist theology in interpreting the Garden of Eden, and the separate and special creation of man as a clay image into which God breathed a soul, as an inspired poetic, figurative conception, as revealed by God's later words in geology and biology. He said that evolution is accepted by all of Methodism's theological seminaries, as it is by every college or university of standing today. He quoted from the Pittsburgh Christian Advocate of late date, an editorial acknowledging the twofold creation account contained in the first and second chapters of Genesis, on which accredited Biblical scholarship is a unit today. Dr. Burnett did not believe that we are to interpret literally the Garden of Eden as an enclosure of ground where the first man and woman lived in a state of nudity, and idleness, with a speaking serpent, and a tree whose fruit magically imparted life or knowledge. The great truths for which these symbols stood were accepted by all. The differences between the brethren he believed were differences in words and phraseology mainly.

The noon hour of adjournment had now come, and the meeting reconvened at two o'clock. The attendance in the afternoon was even greater than in the morning. In the discussion following speakers were limited to five minutes each, and more than twenty participated in the debate. While personalities and acrimony were avoided, it was very evident that many felt deeply moved by the unfortunate episode. No doubt whatever was left of the overwhelming belief of those present in the Virgin Birth. Likewise all accepted evolution, but with varying interpretations of its application to man's creation. Both the mud and the monkey theories of man's origin found advocates.

The great stress of regret was the disturbance caused to multitudes of Christians, in every denomination, by the untimely publication of the controverted views. Ministers have the right to investigate, and to form their own opinions, but they have not the right to promulgate these if they run counter to Methodist standards of belief, and expect to remain in Methodist pulpits, was the position taken. Special censure was heaped upon Dr. Evans for not correcting immediately his misquotation in the press.

While according to Wesley, "Methodists think and let think," and require "only a desire to be saved from their sins" as a qualification for admission to membership in the Church, Wesley himself laid down the "General Rules" of the Church, and selected 24 out of the 39 "Articles of Religion" of the Established Church of England, to govern the Methodist ministry in America. The Apostle's Creed is also included as an article of belief in the questions asked of those desiring to unite with the church. Much more was cited as evidence that Methodism, with all of its breadth, has certain tests of faith which must be met.

Dr. Burnett had pointed out that for the first sixty years Methodism had not asked acceptance of the 25 Articles of Religion, as a requirement for membership; and that the last General Conference had voted that this requirement was unconstitutional, and set it aside, which vote was later revoked by a small margin. Dr. Evans had cited that the Apostle's Creed was composed in the year 220, A. D., and that while he accepted the belief in the Virgin Birth he said that as it was not found in Mark, the oldest gospel, nor in John, the latest, and appeared only in the introduction to Matthew and Luke, and never was afterward mentioned in the New Testament, he held that it was not of such importance as to make belief of it a requirement for Church membership. In the general discussion one speaker asked how many ministers present had ever heard or preached a sermon on the Virgin Birth? Not a hand was raised. He quoted Paul as saying that he "preached Christ and the resurrection." Paul never referred to the Virgin Birth. Nor did any other Apostle. Nor did Jesus. Nor did Mary. It was pointed out that we "believe in the resurrection of the body," but none now interprets that as meaning the physical body, the body which was doubtless the meaning of those who wrote the Creed.

So ran the hour. In his final rejoinder, Dr. Evans, on whom the most of the criticism had fallen, parried the censure of not correcting his misquotation in the press by saying that "not one minister in all Columbus had even asked him if he was correctly quoted." As showing how lightly prejudice may be mistaken for piety, and anger for faith, he told how one woman called him by 'phone, and wanted to know if her pastor belonged to "The Theological Seventeen," he told her to ask him. She said she "had done so and that he denied it, but she did not believe him." A layman had called him and said that his church had passed resolutions of censure, and appointed a committee to inform Dr. Evans of the fact. When he inquired of the pastor himself about it, the pastor had said that "no such committee had been appointed, nor any resolutions of censure passed."

One minister, of another denomination, had challenged him to "debate the Virgin Birth and Evolution with Dr. Riley, the fundamentalist," but without waiting for reply had sent his challenge to the daily press. In conclusion he avowed that he and Dr. Burnett would stand by all they had said, but would not be held responsible for incorrect reports of their views. Dr. Burnett, as well as some others, believed that good would come out of all this agitation, as it would lead many to examine the grounds of their faith, which often rest only on accepting the ready-made beliefs of others. There seemed a general air of relief when all had been heard who desired to speak, and there was an apparent feeling of renewed confidence in the truth and of continued respect, faith, and fellowship among all of the brethren. With gusto they sang together, "Blest Be the Tie that Binds," and adjourned with prayer and the benediction.

By all odds, the most painful revelation in all of this unfortunate incident is the fact that the age-old bigotry and intolerance, which kindled the fires of the Inquisition, still dominates some ministers, and many of the laity, who should read once more our Savior's rebuke to James and John, when they proposed to burn up his enemies, "Ye know not what spirit ye are of."

## Two Armies In Battle

### Array In China; Wu Offers Peaceful Solution

PEKING, May 20.—(By the Associated Press)—Solution of China's internal problems, including unification of the north and south, await the outcome of the military activities north of Tientsin, where the armies of General Chang Tso-Lin and General Wu Peifu face each other. General Wu, who defeated Chang in their recent campaign near Peking, has declared he will not fight again if Chang peacefully withdraws his forces north of the great wall, as the most important question to be considered now is the establishment of a constitutional government.

(A Tientsin dispatch last night reported that Chang's troops had completely evacuated Lanchow, and that

Chang himself and 19 train loads of soldiers had already gone outside the great wall. The retreat was attributed either to General Wu's outflanking movement or to trouble in Manchuria.)

General Wu is convinced that Chang contemplates establishing an independent empire in Manchuria, but believes the republic is capable of overthrowing such a government. It is said that if necessary an expedition will be sent into Manchuria to reunite the province with China proper.

Wu has announced that he is supporting a unification scheme which he believes will win the approval of the southern government. The chief

features of the scheme are:

First—Recall the old parliament which was dissolved five years ago and restore the provisional constitution adopted by the republic during the first year of its existence.

Second—Create a national army controlled and paid by the central government.

Third—The civil governors of the provinces to be responsible directly to Peking.

Fourth—Taxes to be collected by the central government only.

Fifth—Local self-government for each province.

Sixth—The magistrates to be elected by the people.

Seventh—The provincial police, not the national army, to be responsible for the maintenance of peace in the provinces.

It is understood that if the parliament is convoked President Hsu Shih-Chang will resign. The Chinese press quotes Dr. Sun as declaring his willingness to abolish the Canton government if the president with-

draws.

Li Yuan Hung, who retired from the presidency during the attempt to restore the monarchy in 1917, is being urged to accept the office again, should a vacancy occur.

A cabinet has not yet been formed to succeed that of former Premier Liang Shih-Yi, who has gone abroad.

### SUED FOR DAMAGES

DAYTON, O., May 20.—(By the Associated Press)—Charles E. Kilpatrick, Columbus, today filed a suit against the Pennsylvania Railroad Company for \$25,000 damages in common pleas court here for the death of his wife who with Mrs. Otto Ehring, also of Columbus, were killed by a train here on the night of April 22.

## HOME RUN KINGS ARE GETTING BUSY

NEW YORK, May 20.—Ed "Blondie" Miller, of the Philadelphia Athletics, may make it a three-cornered race with Ruth and Ken Williams, of St. Louis, for home run hitting honors this season. Miller clouted out a brace of homers yesterday, the second time he has collected two in an afternoon, and increased his string to eight, but the White Sox checked Mack's winning streak, winning 7 to 4.

Frank Baker added another four base hit to his string, while the Yankees were battering Sothoron, Hagby and Mills, Cleveland dropping its sixth straight, 12 to 4.

### SALES FOR EUROPE

NEW YORK, May 20.—Mrs. Molla Bjurstedt Mallory, American woman tennis champion, planned to sail today for England, where she hopes to meet Miss Suzanne Lenglen in the world's titular tournament at Wimbledon, June 26.

Returning American players who have spent the winter on southern European courts report that Miss Lenglen has apparently regained her best physical condition and control of strokes.

### Book Wiedemann Team

BRANTON, May 20.—Manager Pete Meyers of the Nallers yesterday booked the Wiedemanns of Cincinnati for the attraction here on Sunday, June 4th. The Wiedemann club is in the same class as the Oakleys which can the locals play Sunday at Cincinnati. They have several former league players and should prove a big attraction on the local lot.

## Big Crowd At Bloom Township Commencement

(Close to 500 persons crowded the Bloom township high school auditorium last night when a class of eleven graduates received their diplomas.)

The commencement exercises being a climax to four years of high school work successfully completed. This was the largest class that ever left the school. Last year's class numbered only seven.

The class address was delivered by Prof. G. H. Crow, director of extension work at Ohio University. Prof. Crow delivered an inspiring address in which he spoke of the sacrifice made by the parents in sending their children through high school and how the parents and teachers had worked to see that the pupils were given the best opportunities possible to gain a good education. He also urged them if possible to take advantage of higher educational advantages such as college and university courses that would still fit them better for life's work. Prof. Crow quoted a number

of verses of poetry to enforce his facts.

The music for the program was rendered by the Serenite Quartet of Portsmouth. The singers are Mrs. Charles Storck, Mrs. H. C. Bugh, Mrs. O. J. Deitzler and Mrs. James Breece, with Mrs. J. M. Stockham as accompanist. Rev. S. E. Elser of the South Webster M. E. church had charge of the devotional exercises. The class history was given

by Wilbur Haveney, the Class Proprietor by Mildred Duffel and the Class Will by Marcella Kallenbach. The presentation of diplomas was made by Prof. N. B. Potts, principal of the high school.

The class of eleven includes Emma Pryor, Maud Perry, Mattie Ruth, Mrs. Crabbree, Eva Potts, Wilbur Haveney, Mildred Duffel, Marcella Kallenbach, Elizabeth Bauer, Henry Potter and Thomas Newsum.

## 'ARM IS AMPUTATED

John Teeters, McDermott man whose right arm was terribly crushed while he was working at the plant of the McDermott Stone company a few days ago, underwent an operation Friday afternoon when Dr. J. S. Rardin

amputated the injured arm below the shoulder. The patient was reported to be in a serious condition Saturday. Relatives have been summoned to Teeters' bedside.

## WORKMEN RECALLED BY D. T. &amp; I.

JACKSON, O., May 20.—Henry Ford's recent visit to Jackson seems to be bearing good fruits, for this portion of the line. Previously twenty-five men were dropped, as they supposed, permanently, and it was

given out that hereafter all heavy locomotive work would be done at Dearborn. However, this week the old men were recalled, some new ones added and five locomotives were run in for repairs.

# BABE RUTH, MEUSEL AND PIERCY ARE RE-INSTATED; HOME RUN KING WILL GET A BIG LOVING CUP

## Judge Landis Lifts Suspension

CHICAGO, May 20.—(By the Associated Press)—Babe Ruth and Bob Meusel, of the New York Yankees, today were reinstated by Baseball Commissioner Landis.

The home run king is eligible to start his drive for 1922 slugging honors in this afternoon's game with the St. Louis Browns at New York. The telegram from Ruth and Meusel was received at the commissioner's office about 8:50 a. m. The judge was not there, but his secretary, Leslie O'Connor, said he had received his instructions last night and promptly sent telegrams to Ruth and Meusel reading as follows:

"Your reinstatement applications granted, effective immediately."

A third telegram was sent to umpires Chitt and Owens reading: "Ruth and Meusel reinstated. Effective immediately. Eligible for today's game. K. M. Landis."

The applications for reinstatement from Ruth and Meusel were identical. They read as follows:

"I hereby respectfully apply for immediate reinstatement, to enable me to play in the game here today, Saturday, May 20."

Piercy's application was received a few minutes later and he also was reinstated.

Piercy's telegram follows:

"I hereby make application for reinstatement to enable me to pitch a game today, May 20. Kindly wire."

An early rush for the front seats that rivaled world's series days and all out of reserved seats gave further proof, if it was needed, that the Polo Grounds would be thronged to the limit. But even the presence of the Babe could not dim the lustre of other attractions for the occasion—the St. Louis Browns, generally considered the Yankees' most dangerous rivals, and their slugging sensation, Kenneth Williams.

Williams, with an early start on Ruth, has 11 home runs to his credit, a substantial margin even in a race with so formidable an opponent as the Bambino. The Yankee star has not given up his ambition to be at the record of 50 he set last season.

Just one other feature among many and it promised to play a big part for Ruth. Admired in his home city of Baltimore, he planned to present him a large loving cup, filled with dirt taken from around the home-plate of the ball grounds at St. Mary's industrial school, where Babe learned to play baseball. The dirt was gathered by Brother Matthias, the man who discovered Ruth when as a youth he displayed the fence-busting ability that has carried him to baseball glory.

## The Rivals—A Comparison

BAKE

KEN WILLIAMS of the St. Louis Browns, who is showing the way to Babe Ruth this season in the matter of home runs, is of a type directly opposite to Ruth. Williams is tall and slender, but possesses a great pair of shoulders which give him his drive.

Ruth, while tall, is built on much heavier lines than Williams and weighs perhaps 40 pounds more. Williams is the nervous type, Ruth the stolid. Williams worries when in a slump. Ruth accepts such things as a matter of course.

Williams' features are sharp; Ruth's are rounded. Williams looks the athlete all over, as he doesn't carry a pound of extra weight. Ruth, with his large waist line, always seems lacking in condition.

In only one respect is there a sameness, both players strike out a great deal. This is true of all batters who are free swingers.

Umpires—Pitman and Klem. Time 1:57.

## THIS IS THE CLIMAX

THE world is, indeed, in chaos. The only thing, seemingly, that has stood untriven and unchanged by the mighty cataclysm of a world's war is the Republican party of Pennsylvania. Dynasties might be overthrown, powerful nations disintegrate, but the standpoint, the machine operated, the boss ridden organization of the Keystone state defied all the forces that swayed the peoples and their destinies.

But brethren and also sisters, the universal law is always triumphant. What Pennsylvania seemed was not what she was. She found that out for herself and by herself, when she woke up Wednesday morning and learned that the day before, when she had gone to the primaries, she had not only defeated the machine candidate for governor, but had nominated in his place an ultra progressive, a man it had always regarded more of a Democrat than he is any other sort of a party man.

Scant wonder that it is yet rubbing its eyes and asking dazedly if such thing can be true; less wonder that the administration is "viewing with alarm" and congress is turning to politics as the supreme business of the hour. Aye, it is unbelievable, even with the horrible Hoosier example before its eyes that it can be.

Yet, there it is, looming menacingly. And why not? The people can not be everlastingly deceived and misled, they wish not to return to the old ways. There wasn't any real declaration of their avalanche of votes two years ago. They were awed by the strain and stress of the world war. They absurdly reasoned they could set all its consequent woes by a change of administration; no they didn't reason at all—they would not have anything except what was, on the ridiculous promise that all would be changed. They got nowhere. They realize that and are indignant. They want another change. They will have it.

## A TIMELY INJUNCTION

RECITING where inquiry made of it concerning a certain investment, had saved a member \$500, the local farm bureau concludes an article on the prevalence of spurious promotion schemes with the injunction—Investigate before Investing.

That is precept that anyone can lay to himself with profit. Now would be a good time for him to paste it in his hat and repeat it every time he puts the gear on or off.

It may be, as it may not be, that conditions are reviving and the advent of prosperity is at hand, but that there can be no ifs or ands about a promotion scheme boom being underway. The signs lay at hand in the shape of renewed activity of stock salesmen and the inundation of literature heralding in luxuriant measure the advent of good times—ninety-nine hundredths of the latter is boosting oil "investments." That is a sure sign that the bait is being cast for suckers, easy marks and comons. There isn't any such animal as an investment in oil stocks—it's all a gamble. A hundred dollars is lost in them for every dollar that is returned.

There ought to be a prohibition against the exploitation of oil stocks just as there is against liquor.

## WIFE NOT A CAFE

JUDGE HORACE STERN of Philadelphia has just ruled that home is not a cafe and that husbands cannot demand a la carte service on a table d'hôte basis. A husband wanted divorce because, among other "reasons," when he asked for fish his wife gave him nothing else. The court held she probably did the best she could and all that the law expected.

Rouge and lipstick and a switch in prenuptial days also figured in the case. Here, too, the court was emphatic. "If one woman chooses to use a little heavier artillery the matter must be left to the usage of good society rather than a court of justice." As to the switch being concealed until after the marriage the judge plaintively asked where was the line in artificial adornment to be drawn?

The wisdom of a Solomon may at times be displayed on the bench by failing to attempt a decision no less than in actually making one.

The times are sure out of joint. The announcement was made officially that the federal government had waived the requirement of an overhead or underground crossing at Franklin Furnace before it would furnish aid for the completion of the improvement of Gallia pike. Now comes another official announcement that it hasn't done anything of the sort. We scratch our bald pate and dazedly inquire: "Where are we at anyway?"

Apparently it is a mistake to think all of the juice fell out of the clouds at one time, last week.

Always the unexpected. In an automobile collision, Wednesday, one of the drivers frankly admitted he was at fault. So hope springs that some day other drivers will learn not to "cut the corners."

Yes, sir, things are picking up a bit. Here's France saying she is willing to "talk turkey" with Uncle Sam about that loan. Shows anyway she knows we haven't forgotten it, nor are we likely to.

If half what the front pages carry were true, we could locate the next revolution as going to occur in Chicago.

THE SECOND TABLES

MOSES prayed earnestly and God forgave the children of Israel. He commanded Moses to hew two new tables of stone and come alone to the top of the mount. God told him how wicked it was to worship idols and to overthrow them all. After forty days and nights Moses came down with the tables, the Ten Commandments written upon them. Moses' face was shining, for he had been near God. The people were afraid when they saw this, but he called them to him and told them the words the Lord had spoken.

## New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, May 20.—The bit mate French cafe that blooms in the marble magnificence of the de-luxe apartment house is a far cry from the old French table d'hôte with its 60 cent "red ink" dinner and easy intimacy. The new is only for the plethoric purse—the old was for jauper and aristocrat.

The new is a hideaway for husbands and wives on the loose, who fear the glare of the supper clubs. There is no music. The telephone is hushed and the lights shed a feeble glow. At the door one may scan the patrons through an oval glass before entering. Forewarned is forearmed in these haunts.

Picard or Josef is discreet. He knows his clientele and he knows the below stairs gossip of the rich. If he turns regular patrons away discreetly they understand. So much so that the next day he may receive a good-sized check for averting an embarrassing moment.

It is a jaded crowd—riding pleasures with whip and spur. The simulated and world-weary, in an atmosphere pungent with the elusive scents of Araby, seeking illusion's laughter and finding fancy's tears. In a corner sits a top with the owl's stare of the woodcock. A gossip weekly hints he was horsewhipped by

an irate Long Island Husband.

A foot-fight flame with a dazzling audacity hanging from a gleaming shoulder cutters with a white-haired cynic who has divorced three wives in a row. And has a fourth. She seems to say: "I don't want to worry any wives, but I must be amused." There is laughter in her throat. So she reads La Vi Parisienne while he blows contemplative smoke rings.

At another table sits a girl, only three years out of a Topceka five and ten cent store, who by the magic of New York's alchemy has been transmuted from an automate devotee to a tenant in a most select hotel. She has discarded Broadway surface cars for platinum-lined limousines manned by day and night chauffeurs. And she cannot sing, dance or act.

Even the entrances suggest the liaison. From curb to door—fair weather or foul—is an availing parapet runway. The haughty doorman if asked if so-and-so is dining there will invariably answer "No."

Two legless men on roller platforms were propelling themselves hurriedly by handstrokes to the pavement along Thirty-Fourth street at a busy shopping hour. In dodging the crowds they suddenly collided.

Agnes Keppler was addressing the English Speaking Union at the Biltmore. Her point was that the humblest citizens of other nations possess the glories of their literatures, whereas the American and English proletariats are indifferent to the best that has been written in their native tongues.

One of the audience decided upon a little experiment after the meeting. He saw a man at a peanut stand and thinking he must be Italian spoke to him pleasantly in his native tongue. The peanut vendor looked gravely at the stranger and said: "I am not Italian. I am a Greek."

"Oh," said the stranger. "And do you read the plays of Euripides?" "I read them," said the Greek. "but I prefer Aeschylus."
